

X100+ POLYPROPYLENE VESSEL

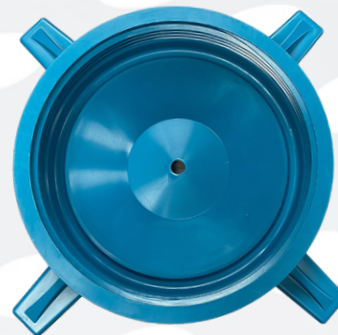

NEW!

New and improved MWF X100+ vessel replaces the highly sought-after FSI X100 Filter Housing. The MWF X100+ is a cost-effective solution which is easy to clean and resistant to a wide range of chemicals. Constructed of FDA compliant 100% polypropylene, the MWF X100+ vessel comes complete with twist-off lid with the new and improved dual seal design, (2 - Buna gaskets are included), and polypropylene basket.

- 2" NPT side inlet and bottom outlet
- 1/4" NPT lid port for pressure gauge and vent valve by others
- 100 PSIG maximum pressure
- 110 F maximum temperature
- Polypropylene construction with a UV inhibitor for all-weather durability
- Replacement gaskets available (Buna and Viton)

Midwest Filter has the largest selection of X100 accessories!

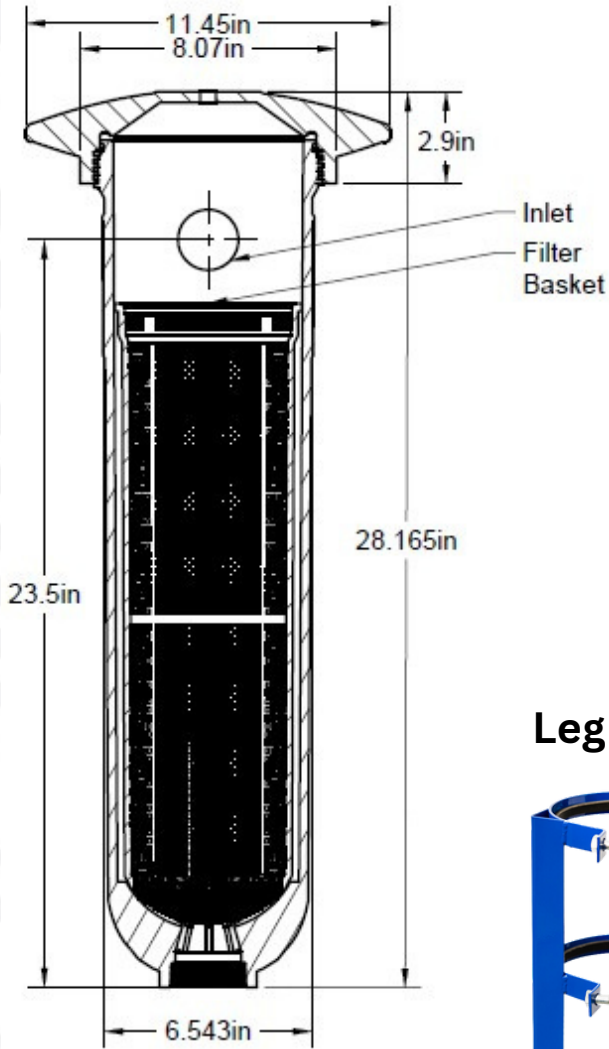

- Mounting legs are sold separately
- Replacement baskets, gaskets, and filters are sold separately
- Size X01 filter bags are sold separately in a variety of micron ratings
 - Nominal rated:
 - POG - polypropylene felt
 - POMO - polypropylene monofilament mesh
 - Absolute rated:
 - POMF - Polypropylene microfiber (multilayer)
 - Extended life cartridge (no conversion plate needed):
 - X01-DP - Absolute rated deep pleat cartridge
